Learn more about Revel. New and up-to-date content ensures a modern learning experienceUPDATED - 9th edition of Journey Of Adulthood features Update all chapters. Nearly a third of the references are new to this edition as in many numbers and tables. The field of adult development is changing rapidly, and the ninth edition provides coverage of major developments that have occurred since the publication of the previous edition. Highlights include: New research on age-related changes in olfactory research discoveries new abilities to sleep and insomnia new diagnostic techniques for Alzheimer's disease new research on the positive effects of physical exercise and cognitive participation on cognitive abilities more detailed look at young and middle-aged adults who spend time as caregivers for older people results back on what qualities men and women find desirable in potentiallong new partners discussing the effects of key events on their personality New APA guidelines on POST-traumatic stress disorder (PTSD) new cross-cultural studies of death anxietyDynamic content designed for the way students read today, thinking, and learning brings concepts to lifevideo and interactions integrated directly into the author's creation narrative keep students participating as they read through each chapter. Thanks to this media-rich presentation of the content, students are likely to complete their personalized reading and keep what they've read. Built-in assessments such as tests and concept verification provide students with opportunities to verify their understanding at regular intervals before moving on. Revel's assessments allow teachers to frequently measure students' understanding, deliver timely feedback, and address learning gaps along the way. Revel™ mobile app allows students to read, practice, and study — anywhere, anytime, on any device. Content is available both online and offline, and the app syncs with working across all automatically registered devices, giving students great flexibility to switch between your phone, tablet and laptop as they move through the day. The app also allows students to set assignment notices to keep them informed of all due dates. NEW - Revel audio playlist allows students to listen and learn on their way. Revel's skill for Amazon Alexa gives them the ability to listen on devices that support Amazon Alexa using simple voice commands. Revel's writing function enables teachers to integrate writing - among the best ways to enhance and evaluate critical thinking - into the course without significantly affecting the burden of grades. Everyday self-esteem throughout the narrative encourages students to express their thoughts without breaking a step in their reading. Assignmental joint writing activities guide students to share written responses with classmates, and promote peer discussion. Articles directly integrated within Revel allow trainers to assign the exact writing tasks they need for the course. Powered by Pearson Smart Resident Article (IEA), this powerful tool uses dozens allocated by human assessment of several hundred representative student articles, all written in to a particular article prompt or question. Highlight, take notes, and a glossary allowstudents to read and study however they do. Teachers can also add notes to students, including reminders or study tips. Superior recruitment, tracking and pedagogical tools help teachers ensure that students complete reading and understand basic concepts that allow teachers to evaluate their homework by accurately indicating the readings that must be completed on dates. This clearly detailed table helps students stay on the job by removing any ambiguity about the materials that will be covered during each semester. When they understand exactly what is expected of them, students are the best motivated to keep up. The performance control panel enables teachers to monitor the completion of classroom duties as well as individual student achievement. Executable information, such as points obtained in tests, tests, and time on the task, helps teachers cross with their students in meaningful ways. For example, the popular column reveals whether student scores are improving or falling, helping teachers identify students who may need help to stay on track. LMS integration provides organizations, teachers, and students with easy access to their Revel courses via Blackboard Learn™, canvas™, Brightspace by D2L™, and Moodle™. With single-sign-in, students can be ready to access an interactive mix of authors' novels, media and evaluation on their first day. Flexible on-demand grade synchronization capabilities allow teachers to control the grades that must be transferred exactly to their LMS Gradebook.Revel designed for digital learning, but we got coverage if you need to print, and Revel gives students everything they need in an integrated digital learning environment. But if students need a loose-print reference to complete their experience at Revel, they can buy one from within their Revel course at any time.
